With a strong background in data management and analysis, I possess the technical skills in programming languages (Python, SQL, Java, R), database management systems (MySQL, Oracle, MongoDB), ETL tools (Informatica, Talend, Apache Nifi), and big data tools (Hadoop, Spark, Kafka) required for the Data Engineer Associate Trainee position. Additionally, I have experience with data warehousing, data visualization, cloud platforms (AWS, Azure, GCP), and a solid foundation in statistics and probability. I am a detail-oriented, proactive team player with excellent communication skills, eager to contribute to data-driven insights and continuous learning in data engineering.

Professional Experience

Appointment Setter
Centrix Nepal | February 2023 - May 2023

- Academic Excellence in Ethical Hacking, Coding and Network Design.
- Acted as first point of contact and set appointments for prospective clients.
